

NEW HIGH RATE BATTERY RANGE

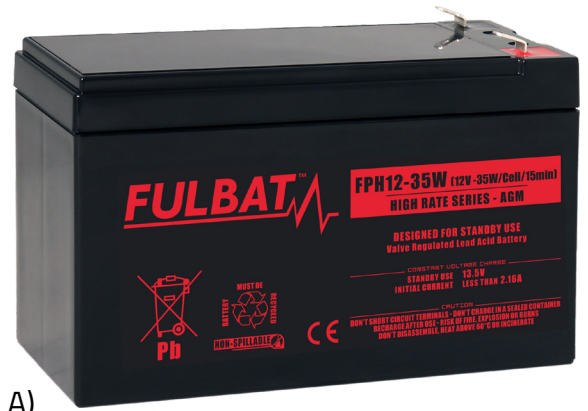

FPH Series - AGM

FULBAT™
INDUSTRIAL BATTERY

FPH Series are high rate batteries with 12 years design life in float service. With advanced AGM valve regulated technology and high purity raw material, the FPH batteries ensure reliable standby service life and high performance during high current discharge requirements. They have been designed specifically for applications where high current loads are required such as UPS & data centers.

FEATURES

- ↗ Excellent high rate discharge performance
- ↗ 12 years design life at 25°C (5 years for FPH12-35W)
- ↗ Maintenance free & non-spillable
- ↗ AGM technology for superior performance
- ↗ Low self-discharge rate (about 3% / month at 25°C)
- ↗ Wide range of operating temperatures
- ↗ Low gas emission due to high gas recombination of 99% (VRLA)

NON-SPILLABLE 

APPLICATIONS

P/N	Fulbat designation	Voltage (V)	Capacity Ah (20h)	Capacity Ah (5h)	Dimensions (±2mm)				Terminal	Barcode mastercarton	Qty / mastercarton	Qty / Pallet
					L	W	H	Total height				
590073	FPH12-35W	12	9	7.95	151	65	93.5	99	T2	3564096900738	5	360
