

# FP12-10H

## Datasheet

### SPECIFICATIONS

Voltage

**12 V**

Capacity

**10.0 Ah** (20hr)

**9.3 Ah** (10hr)

### DIMENSIONS & WEIGHT

Length	151±2mm
Width	65±2mm
Total Height	117±2mm
Gross weight	3.20kg

**VRLA** **NON-SPILLABLE**

VRLA batteries are general purpose batteries with 5 years design life in float service. With advanced AGM valve regulated technology, these batteries ensure high performance and reliability. They can also be used for light cycling use.

Other general purpose models are available in FULBAT INDUSTRIAL category.

### FEATURES

- AGM technology
- VRLA battery
- Maintenance free, no water adding required
- Non spillable: easy to ship
- Deep discharge protection
- No corrosion
- Multi-positional fitment
- Low gassing
- Long shelf life
- Very good cycling and stationary performance

### POLARITY

### MOUNTING ANGLES

### TERMINAL

### APPLICATIONS

Lawn & garden
