

FP12-4.5

Datasheet

FULBAT™
LAWN & GARDEN BATTERY

VRLA **NON-SPILLABLE**

VRLA batteries are general purpose batteries with 5 years design life in float service. With advanced AGM valve regulated technology, these batteries ensure high performance and reliability. They can also be used for light cycling use.

Other general purpose models are available in FULBAT INDUSTRIAL category.

SPECIFICATIONS

Voltage

12 V

Capacity

4.5Ah (20hr)

4.2Ah (10hr)

DIMENSIONS & WEIGHT

Length 90±2mm

Width 70±2mm

Total Height 107±2mm

Gross weight 1.44kg

FEATURES

- AGM technology
- VRLA battery
- Maintenance free, no water adding required
- Non spillable: easy to ship
- Deep discharge protection
- No corrosion
- Multi-positional fitment
- Low gassing
- Long shelf life
- Very good cycling and stationary performance
