

VRLA RANGE

General purpose applications

VRLA batteries are general purpose batteries with 5 years design life in float service. With advanced AGM valve regulated technology, these batteries ensure high performance and reliability. They can also be used for light cycling use.

FEATURES

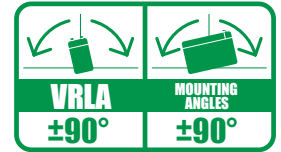

- AGM technology
- 100 % maintenance free (VRLA design)
- Non-spillable: easy to ship
- Deep discharge protection
- No corrosion
- Multi-positional fitment
- Low gassing
- Long shelf life
- Very good cycling and stationary performance

COMPATIBLE CHARGERS

- Fulload 1000
- Fulbank 2000
- Fulload F4

NON-SPILLABLE

| Designation | P/N | Voltage (V) | Capacity Ah (10h) | Capacity Ah (20h) | CCA (A) | Dimensions (±2mm) | | | Polarity | Terminal 3D |
|-------------|--------|-------------|-------------------|-------------------|---------|-------------------|-----|-----|----------|-------------|
| | | | | | | L | W | H | | |
| FP12-4.5 | 590024 | 12 | 4.2 | 4.5 | - | 90 | 101 | 107 | + | |
| FP12-7.2 | 590028 | 12 | 6.7 | 7.2 | - | 151 | 65 | 99 | + | |
| FP12-10H | 590032 | 12 | 9.3 | 10 | - | 151 | 65 | 117 | + | |
| FP12-12 | 590033 | 12 | 11.2 | 12 | - | 151 | 98 | 101 | + | |
