

U1-9

Datasheet

Ca/Ca

Our Calcium/Calcium battery range is designed to offer higher starting power and a longer service life. Ready to use and easy to install, Ca/Ca battery will not require any acid handling.

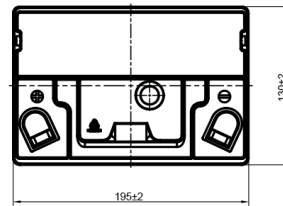

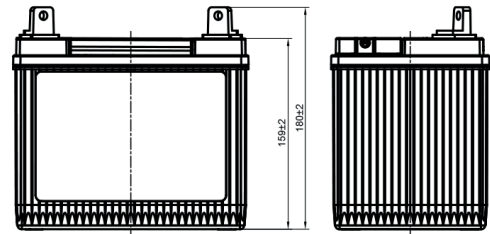

Its design allows it to have a low water consumption and no maintenance will be necessary during its entire service life.

SPECIFICATIONS

Voltage	Capacity	CCA
12V	28.0Ah (20hr)	300A

DIMENSIONS & WEIGHT

Length	195±2mm
Width	130±2mm
Total Height	180±2mm
Gross weight	7.40kg

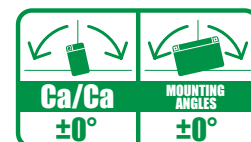

FEATURES

- Maintenance free Calcium/Calcium construction
- Absolutely maintenance free
- Ready and easy to use
- No acid handling – very safe
- Increased power et extended service life
- Extreme vibration resistance
- Lightweight polypropylene container
- Heat-sealed container with flat top cover
- Venting systems
- Handle – “Magic eye” charge indicator
