

FULBANK F2

Datasheet

BANK BATTERY CHARGER & MAINTAINER

The all-new FULBANK F2 is a compact powerful automatic dual-bank charger and maintainer, designed for Lead-Acid and Lithium powersports batteries. With 4 selectable modes, including a dedicated Lithium mode, the FULBANK F2 delivers great versatility for small to medium-capacity batteries, offering 12V charging at 2x2A. Safe, efficient, and easy to use, its multi-stage charging process ensures optimal performance, protection, and extended lifespan for all your batteries.

FEATURES

- Wide compatibility: for 6V/12V Lead-acid batteries and 12V LiFePO4 batteries
- 2 channels: charges and maintains 2 batteries with different voltage and technologies at once
- 4 charge modes: to suit different battery types and conditions.
- Simple operation: connect, select charge mode and forget
- Clear LED display: easy-to-read indicators for charging status
- Very safe: protected against short circuits, reverse polarity, overcharging and overheating

BOX CONTENT

- Fulbank F2
- 2 clamps set
- Power supply cable
- User manual

SPECIFICATIONS

Voltage

12V

Current

2x2A

Stages

3 for Lithium **8** for Lead Acid

Battery

4 > 40Ah
