

FULBANK F2

Datasheet

BANK BATTERY CHARGER & MAINTAINER

SPECIFICATIONS

Voltage

12V

Current

2x2A

Stages

3 for Lithium 8 for Lead-acid

Battery

4>40Ah

The all-new **FULBANK F2** is a compact powerful automatic dual-bank charger and maintainer, designed for Lead-Acid and Lithium powersports batteries. With 4 selectable modes, including a dedicated Lithium mode, the FULBANK F2 delivers great versatility for small to medium-capacity batteries, offering 12V charging at 2x2A. Safe, efficient, and easy to use, its multi-stage charging process ensures optimal performance, protection, and extended lifespan for all your batteries.

FEATURES

- » Wide compatibility: for 6V/12V Lead-acid batteries and 12V LiFePO4 batteries
- » 2 channels: charges and maintains 2 batteries with different voltage and technologies at once
- » 4 charge modes: to suit different battery types and conditions.
- » Simple operation: connect, select charge mode and forget
- » Clear LED display: easy-to-read indicators for charging status
- » Very safe: protected against short circuits, reverse polarity, overcharging and overheating

BOX CONTENT

- » 1x FULBANK F2
- » 2x Clamps set
- » 1x Power supply cable
- » 1x User manual
