

FM12-1000 (M31)

Datasheet

FULBAT®
INDUSTRIAL BATTERY

CA/CA

FM Series are SMF batteries designed specifically to deliver strong and reliable starting power for marine and leisure applications. Featuring a maintenance-free construction, these batteries ensure safe operation, low self-discharge, and consistent performance over time. Optimized for engine starting only, the FM range provides high cranking power and dependable ignition in all conditions. Ideal for recreational boats, motorhomes, and leisure vehicles, these batteries are built to deliver reliable starts and long service life without any maintenance.

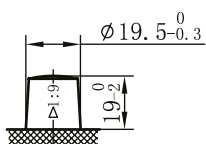

FEATURES

- » Maintenance free
- » Ready and easy to use
- » Extended service life
- » Extreme vibration resistance
- » Lightweight polypropylene container
- » Convenient handle
- » Integrated venting systems
- » Handle - «Magic eye» charge indicator
